

February Panther Press

When each February rolls around, the first thing most people think of is Valentine's Day, hearts, flowers, candy, and cupids. Although that's a wonderful day, we at St. Paul Lutheran have another special celebration--Lutheran Schools Week.

Our week-long celebration begins Sunday, Feb. 24 with the 3rd-5th graders singing at the 10:45 service as a thank-you to the congregation for giving us the beautiful facilities we have. Tuition dollars are spent only on educational materials; the rest is from the generosity of the members of St. Paul Lutheran Church. We thank God for our gym, science lab, computers, and the electives we are able to offer, all gifts from special people who believe in a Christian education.

A complete list of all the special days and activities for our celebration will be sent home soon, but one date to put on the calendar is Education Night on Feb. 26, 5:30-6:30 p.m. Each class will display projects that they have been working on specifically for that night. You will enjoy seeing the inventions of the 3rd graders and the living wax museum that 4th grade features. The evening is filled with excitement as students demonstrate and display their projects. Consider inviting a prospective family to introduce them to St. Paul Lutheran School.

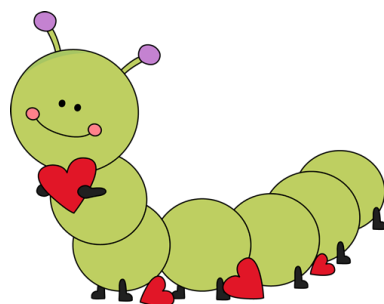

This month of hearts will also feature our Jump Rope for Heart. The students will try to raise a predetermined amount of money for the American Heart Association and will do the actual jump rope event the week of Feb. 18. If they reach their goal, a special "treat" is going to be given to

Mrs. Wisneski. Watch for details!

May your February be filled with the love of Jesus and with thankfulness for our school and all who attend, teach, and support it.

In His service,

Amelia Fortmeyer

- 27** Career Day
- 28** Character Day
- 3/1/19** Panther Pride Day

2nd Grade Visits Hy-Vee

2nd grade enjoyed a field trip to our local Hy-Vee. They took a tour with Tabby, where they learned that our food comes from many different places and even tried to stay warm by screaming in the milk cooler! It did work for some:~)! Sheri had some different food games and activities prepared for them to learn about healthy eating and they enjoyed a healthy snack. Last, each student purchased one item and payed exact change for it. Once back to the classroom each second grader looked at their receipt and leaned about all the information on it. They then used the items they purchased to make some goodies for their specialty teachers and other staff members! Overall it was a great trip!
